MEDICINAL.

CURES OTHERS.

Mrs. J. H. LANSING, of South Glen's Falls, Saratoga County, N. Y., writes: "After my third child was born, I barely gained strength enough in two years' time, so as to be able to crawl about to accomplish the little house work that I had to do, and that only by lying down to rest many times each day; but sick headache very often, many pains and aches all the time. After I had taken one bottle of your 'Favorite Prescription' I could see a great change in my strength and less sick headaches. Continued taking the medicine until I had taken seven bottles of the 'Favorite' and one of the 'Golden Medical Discovery'; I am now able to do housework for myself and husband and two children aged nine and five. I also take dressmaking, and enjoy walking a mile at a time, when I can have the time to do so. And I am sure it is all due to Dr. Pierce's Favorite Prescription as I know I was failing fast before I commenced to take it." Sold by medicine dealers everywhere.

WIFE AND DAUGHTER ELOPED.—An

elopement from Knoxville, Tenn., has
culminated in the sensational arrest at
Louisville of all the principals in the
affair. Mrs. Mattie Landes, a fine-look-
ing woman, aged fifty; William H. Lovell,
a well-dressed man of forty-
three, and C. S. Jennings, a fashionable-
looking young man, aged in jail there.

The three were arrested on a warrant
sworn by G. W. Landes, of Knoxville.
Landes, who is said to be in com-
fortable circumstances financially, came
to Louisville from Knoxville a few
days ago, and at once called on Chief
of detectives Owens and told his
troubles. According to his statement,
his daughter, Nellie, a beautiful young
woman, aged nineteen, had been re-
ceiving attention from C. S. Jennings,
against his wishes. He also stated that
he had suspected his wife of being on
much too friendly terms with William
H. Lovell. On July 6 the whole party
cloped, taking with them two small
children. The older daughter was ac-
companied by Jennings. The house at
No. 1702 west Walnut street was reat-
ed, and they had been living there
since. Landes spent nearly two weeks
searching for them before he went to
Louisville. He secured the assistance
of the detectives, who succeeded in
locating the guilty parties. The oldest
daughter was not locked up, being left
to take care of the younger children.

CARE OF THE REFRIGERATOR.—The

refrigerator needs special care during
the warm weather. Every housekeep-
er should personally see that it is kept
perfectly clean. It is a good plan, say
the New York World, to keep a small
dish of powdered charcoal on one of the
upper shelves of the refrigerator, as it
is an excellent absorbent of odors. It
should be changed every few days.

Food that has little odor itself and
food that absorbs odors readily should
be placed at the bottom of the refrig-
erator. All foods with a strong odor
should be kept on the top shelves. Sour
milk or cream should not be kept in
the refrigerator. Salad dressings, tar-
tar sauce and celery should be covered
closely, or they will flavor everything
that is shut up with them. Pineapple,
strawberries and raspberries should not
be shut into a common ice-chest with
milk or cream.

In the refrigerator where there is a
circulation of dry air, butter, milk,
cream and other delicate foods may be
kept in the lower part of the refrig-
erator, and the fruits, vegetables, etc.,
with stronger flavors and odors may be
kept on the top shelves. If arranged in
this way there will be little danger that
one kind of food will absorb the flavor
or odor of another.

THE NORTH RIVER BRIDGE.—The

engineer commission appointed to de-
cide the length of span for the North
river bridge continued their session yester-
day. Engineer Wm. Hildebrandt
explained his plans, as also did Engi-
neer Lindenthal. The latter proposes
to sink cofferdams down to bed rock,
and the building of the towers will go
on continuously, and when finished the
space left inside the cofferdam will be
filled with gravel. Mr. Lindenthal be-
lieves the structure can be constructed
in four years, two years for the anchor-
ages, nine months for the towers and
fifteen months for the cables and iron
work.

Mr. Lindenthal explained that in the
construction of the Brooklyn bridge the
cables were found to be always subject
to the action of the sun on one side,
and that in the cooling the wires were
apt to get twisted. To avoid this he
would inclose the cables in a shell,
leaving a space between the shell and
the cables large enough for a man to
crawl through and oil them. The cost
of the bridge would be \$21,000,000,
which would include river charges and
other contingencies.

THE BREATH OF A CHRONIC CATARRH patient

is often so offensive that he becomes an object
of disgust. After a time ulceration sets in,
the spongy bones are attacked, and frequent-
ly destroyed. A constant source of discomfort
is the dripping of the purulent secretions in-
to the throat, sometimes producing inverte-
brate bronchitis, which is usually the exciting cause
of pulmonary disease. The brilliant results
by its use for years past properly designate
Ely's Cream Balm as by far the best and only
cure. Call upon your druggist for it.

Palpitation of the Heart

Shortness of Breath, Swelling
of Legs and Feet.

"For about four years I was trou-
bled with palpitation of the heart,
shortness of breath and swelling of
the legs and feet. At times I would
faint. I was treated by the best phy-
sicians in Savannah, Ga., with no re-
sult. I then tried various Springs
without benefit. Finally, I tried

Dr. Miles' Heart Cure

also his Nerve and Liver Pills. After
beginning to take them I felt better! I
continued taking them and I am now
in better health than for many years.
Since my recovery I have gained fifty
pounds in weight. I hope this state-
ment may be of value to some poor
sufferer."

E. B. SUTTON, Ways Station, Ga.

Dr. Miles' Heart Cure is sold on a positive
guarantee that the first bottle will benefit.
